- * Since the lock of the CNA2 series cannot be disassembled and is normally replaced as a unit, kits are for the cylinder section only. These can be ordered using the order number for each bore size.
- * The seal kit includes a grease pack (ø40 and ø50: 10 g, ø63 and ø80: 20 g, ø100: 30 g).
Order with one of the following part numbers when only the grease pack is required.
Grease pack part no.: GR-S-010 (10 g), GR-S-020 (20 g)
- * As for the center trunnion type, it is very difficult to adjust the position of the trunnion bracket and the center of the axis.
Therefore repair at SMC is recommended.
